New Business

Discussion:

- Trauma Video- Tom sending video to providers seeking training on the Safe Infants Act without introduction, but injury prevention script ready.
- SERC-What to do if EMSC loses funding.

Conclusions:

Action items:

Person responsible:

Deadline:

Old Business

Discussion:

- School Nurses: No more EMSC funding toward school nurses, and make part of Trauma. Law says that an individual in the school building should know CPR, and the majority of schools do not have such a person. Fifty percent of Kentucky Counties have no school nurse on staff. Federal government wants a letter of support, therefore take letter from Mickey Reynolds to Washington Conference. Ask Kentucky Department of Education, and Kentucky Pediatric Society for letters of support.

Deadline:

Metanphetamine And Pediatric Exposure

Dr. Pollack

Discussion:

- Metanphetamine labs and leaks are becoming problem in KY. When busting a lab take fire truck and ambulance to scene to treat anyone injured. Metanphetamine exposure has short and long term effects on children, which in turn makes it hard to place these children in foster care. Coming out with a protocol in July, and make others aware that this is an EMSC issue also.

Dr. Pollack

SB 60**D. Harover**Discussion:

- Expires July 31. Still no response from anyone.
- People of the state had no interest in the commemorative birth certificates. Look into attaching EMSC to a new license plate.
- Offer scholarships to EMTs and Paramedics.
